Jared Dunnmon

Jared Dunnmon is currently Vice President of Future Technologies at Our Next Energy and Senior Advisor to the Director for Strategic Initiatives at the Defense Innovation Unit (DIU), where he was Technical Director for Artificial Intelligence from 2020-2023. During this time, Jared also served as a founding member of the Office of Emerging Capabilities Policy in the Office of the Undersecretary of Defense for Policy. Prior to DIU, Jared was an Intelligence Community Postdoctoral Fellow in Computer Science at Stanford University, where he was advised by Prof. Chris Ré at the Stanford Artificial Intelligence Laboratory. Jared holds a PhD from Stanford University (2017), a B.S. from Duke University, and both an MSc in Mathematical Modeling and Scientific Computing and an MBA from Oxford, where he studied as a Rhodes Scholar. He is currently a Term Member at the Council on Foreign Relations.
