

Justin Briggs

Justin Briggs is the chief operating officer at Antora Energy. Dr. Briggs oversees business operations, policy communications, talent acquisition, people operations, and EHS (Environment, Health & Safety). Dr. Briggs holds a B.S. in physics from UC Berkely and a Ph.D. in applied physics from Stanford University. During his Ph.D., he developed next-generation renewable energy technology and conducted research on high-temperature materials for energy generation and storage applications. From 2007 to 2017, he held research positions at MBio Diagnostics, Berkeley Lab, NCAR, and Berkely Space Sciences, and the National Oceanic and Atmospheric Administration.
